

## **My Answer to "Snopes", NBC, CBS, Ted Turner, and the American Press Club, Too.**

**by Anna Von Reitz**

First of all, as has been established several times, "Snopes" is the brainchild of a couple liberal Californians and whatever similarly minded (and prejudiced) volunteers they can draft into carrying out their self-appointed mission of making their own opinions into facts.

In my experience, Snopes can't tell an actual fact from a fairytale and would be well-advised to find other employment. Be that as it may, I do understand that those who have been programmed since babyhood to rely on authority and that means anyone else's authority-- instead of using their own brains --- will have a hard time discerning truth from fiction.

Here's your wake up call and my reply to Snopes and all the other pundits out there: If I am not a judge, why haven't I been arrested for "impersonating" one for the past three years?

If I don't know what I am talking about, why have I not paid the IRS a dime in twenty years?

If I am not "legit" why do I have a 300-page affidavit of probable cause, published (Amazon.com: "You Know Something Is Wrong When.....An American Affidavit of Probable Cause") detailing step-by-step (with the public record references) how we have all been defrauded by international banks running "governmental services corporations" as for-profit businesses and pretending that they are the government the people are owed?

How is it that that affidavit has been available for all to see since last June and not one tiny bit of it has been disproven?

And why is it---- when faced with sworn testimony of crimes committed against the American People--- have all the supposed "authorities" scuttled away like cockroaches under a bright light?

Not a single answer from "Congress"---- not a peep.

Why is it that the public interest litigation I brought before the "SUPREME COURT FOR THE STATE OF ALASKA" objecting to the mischaracterization of Alaskans as Federal United States Citizens subject to arbitrary arrest under the provisions of the NDAA 2012----could not be heard?

Could it be that I am correct and they are frauds? That they in fact have NO JURISDICTION? No right to even SPEAK TO us when we are standing on the land of our forefathers?

Why is it that the Farm Union Cases successfully prosecuted by General Gage all the way through the Supreme Court (yes, I was just a young woman at the time, but I was involved in that through my Mother) have been "sealed" by the "UNITED STATES SUPREME COURT"?

And this is just for starters. If "Snopes" or any of the mainstream media corporations are NOT in the pockets of the crooks responsible for the looting and misadministration of our public trusts, they ARE at the very least proven to be the most worthless, brainless, useless excuses for journalists or investigators of any kind that the world has ever seen.

You would all do far better to rely on your hairstylists and barbers for the actual news, because all you will be "fed" by these bought and paid for "handlers" is a constant diet of trivia, sex, and death.

In 1989 my husband and eldest son went on a summer fishing and camping trip leaving me alone for two weeks. I used the time alone to clean out the garage and think deep thoughts. Out of boredom one night I started keeping a scorecard related to the Evening News--- I drew four columns labeled: Sex, Death, Sex and Death, and Other. And as the "news" stories rolled by, I ticked off tally marks..... over 90% of the stories involved sex or death or both.

Why?

And the next question is---- what possible good does it do me to know about a single murder case in LA? Or Chicago? Why THAT murder case and not any one of 300 others?

You see how it is, when you finally start to THINK again?

You are being led around by your noses and your most base instincts, sex and fear, to grease political agendas and to push you to ask for more "government services" and to buy more "stuff" and that is all --- absolutely all---the mainstream media does and that is all it promotes: consumerism and fear and prejudicial gossip.

Just sit down in front of your television and do what we did. Keep a tally. Ask yourselves--- now, how was I benefited by knowing about that?

Very quickly you will note that you were not benefited at all by any of the crap that they are feeding you, except perhaps for the weather report. The sum total of the purpose of the "news" is to make you feel depressed, hungry, sexually aroused, and fearful about things that you are helpless to do anything about.

So why put up with that kind of abuse? What possible use is it? Turn it OFF and keep it OFF. Stop buying their "product".

By the time 9/11 rolled around, I was able to stand there and ask a very important question---- "Where is all this Hollywood quality film coverage coming from?"

Now that you stop and think of it---- how was it possible that the Twin Towers tragedy was filmed from every possible angle in high definition Technicolor just like a Disney movie? Why wasn't it the real world chopped up and pieced together coverage you would have expected to get from tourists on the sidewalk and officer workers shooting photos through dirty windows and footage from gritty parking lot and security cameras?

Answer--- it was all set up. The Hollywood film crews were set up the night before. Hello? Earth to America? You watched over 3000 innocent people die in full color HDTV and it was obviously set up that way by the "governmental services corporation" you have been mindlessly obeying and paying to murder and rob you and everyone else on Earth for the past 150 years.

WAKE UP! BIRDS SINGING! FULL ALERT! SWITCH YOUR BRAIN CELLS BACK TO THE "ON" POSITION!!!

For Snopes's information-- and everyone else's:

There are three court systems in this country:

(1) Administrative Courts which are in-house corporate tribunals designed to oversee the operations of the "federal corporation" and its franchises and employees only;  
(2) Maritime/Admiralty/Martial Courts which are of restricted jurisdiction and run under the delegated authority of the "Federal Government" by Bar Association Members;

Both of these above court systems are operated by Bar attorneys and they are all incorporated and they all run under international law in the Jurisdiction of the Sea and don't properly have a thing to do with anyone who isn't a federal employee, involved in seafaring, or otherwise naturally subject to their jurisdiction.

(3) Common Law Courts which came to this country with the Colonists and which have functioned on the land of this country for over 400 years are the courts "of the people, by the people, and for the people" -- and if you bother to carefully read Articles I, VI, and Amendment VII you will clearly see that ALL issues of Law pertaining to living people and their assets are to be tried at Common Law. Common Law is the "Law of the Land" and so is The Constitution "Law of the Land" as opposed to "law of the corporations" (maritime) or "Law of the Sea" (Admiralty).

People are "land assets"--- we come from the land and go back to the land; we belong to the land, quite literally, and so we are owed the Law of the Land, but for several decades the self-interested "governmental services corporations" have contrived to avoid that fact and to instead press-gang all of us and our assets both public and private into the foreign international jurisdiction of the sea and have prosecuted us under the false presumption that we are all British Crown Subjects owned lock, stock, and barrel by the British Crown Corporation.

This is the vicious unconscionable fraud scheme that these rotten criminals have perpetuated on the American People and had guts enough to promote on American soil.

If "Snopes" was worth the powder to blow it to Hell and back, it would have long ago investigated the nature of the BAR Association and the IRS and would have discovered (as perfectly average Americans eventually did) that the American Bar Association and the Internal Revenue Services are both owned and operated by Northern Trust, Incorporated, and that they are both private bill collection agencies and licensed privateer organizations operated by British Crown subsidiaries. They don't have any public role or office at all. They are not units of government. They are not innocent professional organizations. They are undeclared Foreign Agents and they are in default on the Treaty allowing them to be here: 1947 Bar Association Treaty.

If "Snopes" had a brain in their combined heads, they would have then looked at life a bit differently and would be the ones opening up your eyes concerning the actual situation you are facing. Instead of concluding that I am not a judge, they would be asking in what sense these other yahoos are judges? Judges of who? Judges of what? Judges in what sense?

Who are they? Who or what do they work for if not the people? Where are the Common Law Courts required to serve the people by Amendment VII?

Oh, well, bless my soul! Here they are, in Alaska, in Colorado, in Florida....all sorts of unincorporated American counties and states all operating under Common Law with real live Common Law Judges and Common Law Grand Juries and Common Law Trial Juries, and may God be praised, there are EVEN Constitutional Sheriffs who have taken up their public offices and who are enforcing The Constitution again.

You have been denied access to The Constitutional guarantees and the Common Law of the Land because your political status records have all been self-interestedly falsified by these vermin. It is up to you to object and to notify John Kerry that a

Great Correction is owed by the "governmental services corporation" pretending to be your lawful government.

Ban Ki-Moon needs a shout up his drain pipe, too.

Dear Mr. Secretary..... I am NOT a British Crown Subject and have never considered that to be any kind of beneficial status at all. Any and all representations notwithstanding, I claim my birthright status as one of the "free sovereign and independent people of the United States" and note that in the absence of the performance of the duty noted at 2 United States Statutes at Large 153, Subchapter 28, Section 1--- no other political status may be presumed against me, including any claim that the 14th Amendment had any affect upon my standing or political status or that of my family. I live on the land and do not accept any claim of "residency" or "address" apart from the GPS you can see on any map. I fear that I have been the victim of organized crime and have suffered identity theft and have been defrauded, but I claim my birthright and will uphold it. Thank you very much for your prompt attention to this grave error and misrepresentation of the American people by the United States of America (Minor) and the District of Columbia Municipality. Please note that the primary culprit, the "FEDERAL RESERVE" has been re-incorporated under United Nations City State auspices, and that the INTERNATIONAL MONETARY FUND / IMF is also a UN Agency and is implicated in this criminal fraud scheme, so that it appears that the United Nations is itself a crime syndicate operating on our shores. Prompt action to correct is highly recommended.

Finally, Mr. Secretary, it has come to our attention that those who have profited most by this gigantic fraud scheme have proposed to kill off their creditors and in this way escape their obligation to repay the property, interest, and collateral the people are owed.

You and the members of the Security Council have received our Declaration of Joint Sovereignty and our Sovereign Letters Patent. We trust that the situation is now obvious enough for even the American Mainstream Media and Snopes.com to get the point.
